HAWAII HEARD FROM

Another Vessel Arrives From Honolulu.

NO NEWS OF IMPORTANCE.

The Affairs on the Hawaiian Islands Are About the Same as When the Last Vessel Sailed—Minister Willis Has Done Nothing Toward Restoring the Queen—Official Action Anxiously Awaited For.

SAN FRANCISCO, Dec. 9.—The schooner *Transit* has arrived in this port direct from Honolulu. The following correspondence is furnished the Associated Press:

During the afternoon the Alameda sailed Minister Willis made a statement, virtually as already published by the Associated Press, that nothing definite would be done here until he had received a reply to the dispatches sent to Washington by the Alameda. This statement was published in *The Star*.

The Bulletin published a letter from Minister Willis, in which he said he wished his remarks in *The Star* to apply to the entire press of Honolulu. The stand taken by Minister Willis in his interview with *The Star* which was revised in proof by him before publication caused considerable anxiety in government circles owing to the intimation that any breach of the peace would be punished by the American minister.

To the Associated Press his words were: "Any trouble precipitated on the other side would be stopped at once by the United States forces."

On the morning of the 17th, the day after the Alameda left, President Dole called upon Minister Willis to learn how far the authority of the United States was expected to be carried in case of an emergency. Upon his return it was learned that the provisional government was fully satisfied with the explanation and limitations made by Minister Willis.

It is the general opinion that the original language used by the United States minister conveyed more than he intended it should. It is understood that President Dole very clearly informed the minister that the provisional government commanded the situation and would require no aid from the United States unless it was called for. The president assured the minister that any breach of peace which might occur would be speedily dealt with by the Hawaiian government.

The provisional government received assurance on the points mentioned which were perfectly satisfactory, it is understood that Minister Willis said he would stand back of the present government until the present difficulty was settled. The tension in political matters since the departure of the Alameda has only partially relaxed. Minister Willis stated he made the public statement that "nothing immediate would be done" to ease matters down, as he believed a crisis was approaching.

His remedy worked for a few hours, but it now appears he has divulged just enough to stimulate speculation, and both sides interpret his explanation favorably which, in the end will doubtless add fuel to the political fire. When the attention of the United States minister was called to the fact that the provisional government would aid him in keeping the peace, he replied that he did not expect trouble unless it came from irresponsible persons on either side.

Ex-Marshall C. B. Wilson has brought two libel suits against Walter G. Smith, editor of *The Star*. The suits have grown out of the republication of a report made to Mr. Blount by Colonel V. V. Ashford, regarding immorality practiced in the palace by the ex-queen and Wilson. The original account was published in the San Francisco Chronicle last April, and was furnished the Honolulu correspondent by Ashford, although given to Mr. Blount in confidence. Most of the allegations in Ashford's account are said to be capable of proof and the defense allege they will place the ex-queen on the stand and give a full expose of the entire matter. It is generally believed the suits will not be allowed to come to trial by the prosecution.

An interview with members of the provisional government develops a determination to stand on the defensive and take nothing on trust until the United States government is officially heard from either directly or through Minister Willis. In the meantime troops will be kept fully armed and reserve guard ready at a minute's notice. Many Americans assert that no restoration shall take place.

The provisional government expresses the opinion that the use of force on the part of the United States would be equivalent to a declaration of war. Resident Americans have at least 1,500 rifles and ammunition in private hands which it would be impossible to seize in case of restoration. Those best posted say the throne would not stand an hour after the withdrawal of American troops.

The theory of restoration, however, will not be believed here until the last moment. Should it then prove true serious trouble will likely follow. This much is admitted by the clearest heads on both sides.

From a source almost in touch with the American legation it is learned that the contingency which has caused alarm in Hawaiian affairs until Washington is heard from, is the fact that the provisional government and resident Americans would openly resist compromise or restoration.

In conversation with the Associated Press reporter, Minister Willis said he was confident that legislation favorable to the Hawaiian Islands would shortly

take place in the United States. He thought the duty on sugar would be placed at 1 cent per pound, and that the bounty would be repealed. This would make a net difference of about \$15 ton to Hawaiian planters under their present contracts, which allow the sugar trust a heavy rebate.

News Direct From Auckland.

AUCKLAND, N. S., Dec. 9.—The steamer *Monowai* has arrived here. She left Honolulu on Nov. 24. All was quiet there. The news that President Cleveland intended to restore the queen caused great excitement. It was discussed by excited knots of people on the street and was generally condemned.

A rumor was published in the *Honolulu* papers that the queen was not willing to accept a restoration unless she was assured of the armed support of the United States.

The *Hawaiian Gazette* of Nov. 24 says:

"In the meantime the monarchy is not restored and will not be unless by the armed forces of the United States, whose forces must then continue to support the ex-queen. There may be small differences in the ranks of the party of reform, but we are today more united and determined on the main issue than ever before.

"Let every reformer put aside all other and minor things. As surely as there is an eternal justice overruling the affairs of men, so surely will the gross outrage proposed to be done to Hawaii fail of its purpose."

STORM IN ENGLAND.

Several Steamers Damaged and Other Property Destroyed.

LONDON, Dec. 9.—A heavy gale has passed over the United Kingdom, traveling in a northwesterly direction and assuming its full force in the Irish channel.

The local steamers at Greenock and in the Clyde had a terrible experience. The mails could not be landed.

The steamer *Mountaineer*, with the *Rothsay* mails, was dashed against a pier at Gourock and damaged. She was obliged to return to Greenock.

A woman died from exposure in a gale rain between Sand Bank and Shore.

There were exciting scenes at Ayr during the rescue of the crew of the Norwegian steamer *Contest*. The vessel broke from her moorings when the gale was at its fiercest, and she drifted helplessly along the coast. The life-saving service endeavored to use rockets, but the apparatus became entangled and was rendered useless. The lifeboats were then launched and the 12 members of the crew of the steamer were finally landed through the surf with the greatest difficulty.

An immense amount of damage to property was done at Dundee and Dublin.

A portion of the Fendt pier and 200 yards of the railway at Tralee, County Kerry, were destroyed.

A schooner is ashore at Kilfinora. Many boats were wrecked.

A vessel was observed firing rockets three miles from Holy Head. It is believed that she was lost.

FIGHTING FOR FOOD.

A Sandwich Riot in Chicago's City Hall Hundreds Hungry.

CHICAGO, Dec. 9.—The sight of sandwiches in the city hall Thursday night nearly caused a riot among the homeless who were allowed by the police to use the corridors of the municipal building for a place of lodging. For a moment it looked as if the 300 men who obstructed the main hallway and stairs in the north end of the building would engage in an encounter, but the appearance of police officers prevented serious trouble. The men were hungry and when a few men who had made a pool for the purchase of sandwiches entered the place with the eatables there was a rush for the food and those who had bought it were sorry they did not eat their sandwiches outside, for in the row following their entrance they lost their all.

In an instant after the food was exhibited there were 200 men on their feet and blows were struck in all directions. No sides were taken in the matter except the 20 who had purchased the food, and this accounts for the fact that the trouble was easily suppressed. No one knew against whom he had a grievance and when officers commanded them to remain quiet they obeyed and again took their places on the cold stone floor to sleep.

NARROW ESCAPE.

Twenty Men Almost Lose Their Lives in a Burning Building.

PAWTUCKET, R. I., Dec. 9.—This city was visited yesterday evening by one of the most disastrous fires that has occurred here in several years. The fire was in the big belting establishment and tannery of James Davidson.

The concern when in full operation employs 300 hands. It had been shut down for some time, and the owner had just arranged for starting. About 20 men were at work in the establishment when the fire broke out. The flames started from some unknown cause in the south end of the building and spread so rapidly that the workmen were forced to make their escape by means of the windows. The smoke was so intense that some of the men had to crawl upon the floors to reach the windows.

A general alarm called out the entire Pawtucket department, but the flames had such headway that it was impossible to save the building. The tannery was practically destroyed. The loss is placed at \$125,000, fully covered by insurance.

Gladstone III.

LONDON, Dec. 9.—Mr. Gladstone is ill. He was unable to go to Brighton Thursday, as affirmed.

HOUSE PROCEEDINGS.

The Bankruptcy Bill Strangled and Nothing Else Done.

WASHINGTON, Dec. 9.—The Torrey bankruptcy bill was strangled unexpectedly by the house yesterday just as the consideration of the bill under the five-minute rule was about to begin. Colonel Oates, the champion of the measure, had declined to permit the house to vote on his substitute providing simply for a voluntary system of bankruptcy, whereupon Mr. Bland of Missouri precipitated the entire question by moving to strike out the enacting clause of the bill.

Vainly the advocates of the measure protested that it was unfair to reject the bill before the house had had a chance to perfect it by amendment. Their pleadings were unavailing. The vote was decisive. It was carried by a majority of 142 to 111. Judge Torrey of St. Louis, the author of the measure, who has been here for 10 years promoting the interests of the bill, sat disconsolately in the galleries. The vote was not a strict party one. An analysis shows that 115 Democrats, 18 Republicans and 9 Populists voted to strike out the enacting clause, and that 54 Republicans and 47 Democrats voted against it.

An attempt to drive the bill for the admission of Utah as a state through the house during the morning hour was defeated by a determined filibuster, led by Mr. Lingley of Maine and supported by almost the entire Republican side. The course of the Republicans fore-shadows their policy upon the admission of not only Utah, but the other Democratic territories of New Mexico and Arizona, bills for which have already been favorably reported by the committee on territories.

KILLED HIS BABY AND HIMSELF.

A Tragedy in Pittsburgh Caused by Excessive Drinking.

PITTSBURG, Dec. 9.—Yesterday afternoon about 4 o'clock, Joseph Oldman, a resident of Taylor street, Sixteenth ward, shot his 10-month-old baby and then blew his own brains out with the revolver. Oldman, it seems, has been drinking heavily of late and has been quarreling with his wife. He had been drinking during the day and, coming home, found his wife absent. She had gone to a neighbor's for a moment. Oldman entered the room where the baby was sleeping in its cradle and seated himself beside it.

Becoming enraged at the absence of his wife, he got a revolver and pointing it at the slumbering babe's head, fired. Then he pointed the weapon at his own head and pulled the trigger. His wife and several neighbors rushed in and found the murdered baby dead in its cradle and the murderer lying unconscious on the floor. An ambulance was called and Oldman taken to the west Pennsylvania hospital, where he died in a few moments. Oldman has been out of work for some time.

FIGHT IN A BARBER SHOP.

A Man Has His Throat Cut Because He Refuses to Pay a Bill.

ELIZABETH, N. J., Dec. 9.—A terrible fight took place in an Italian barber shop on Third street, near Bond street, Elizabethport, late yesterday afternoon. O'Hara, a molder in the Worthington pump works, and Andrew Donohue, of the Fowler Can works were badly slashed by the barber. O'Hara while seated was asked to pay a bill. He refused, when the barber drew his razor across his throat, making a gaping wound from under the chin to the ear and another wound several inches long on his forehead.

O'Hara sprang from the chair with the blood spurting from his throat and fell to the floor. Donohue rushed at the barber and a terrible battle followed. Donohue received two long and deep razor wounds in the back and a terrible gash in the face.

Feared Exposure.

ST. LOUIS, Dec. 9.—Fearing it is said, an examination into his accounts by his employer, Henry Cahn, 29 years old, a saimesian for W. Wrigley & Company of Chicago, succeeded by poison yesterday. He came to St. Louis three months ago from Indianapolis. His home is at Cincinnati, where his folks are now living. He had been in the employ of Wrigley & Company for more than a year. He received a telegram that a representative of the firm was on the way to this city to examine his accounts. Immediately after this the fatal dose was taken.

Freight Train Meet on a Curve.

HELENA, Mont., Dec. 9.—A serious railroad accident occurred on the Northern Pacific railroad between Boulder and Jefferson City. Two Montana Central freight trains, both double-deckers, while on the Northern Pacific track, met on a curve in a head-on collision. The four engines and many cars were piled up on the track. Traffic was stopped all day. The property loss is heavy.

Train Wrecked.

EL PASO, Tex., Dec. 9.—A dispatch to *The Times* says that the Southern Pacific train going west was wrecked at Lisbon, 10 miles east of Lordsburg. The railroad officials here have not been able to get any particulars, and it is feared the angry tramps have had a hand in it, though nearly a hundred were brought in from that direction yesterday evening.

Satolli to Receive a Red Hat.

NEW YORK, Dec. 9.—It is reported that private dispatches have been received from Rome which seem to put beyond doubt the speedy departure from this country of the papal delegate, Satolli. It is said that he will receive the red hat of the cardinalate very soon, and must be on the ground a few months before the honor is conferred.

SOUTH BEND BANK ROBBERY.

The Thieves Still at Large and No Prospects of Their Capture.

SOUTH BEND, Ind., Dec. 9.—The robbery of the South Bend National bank at noon Thursday still remains the chief topic of conversation at the clubs and hotels, as well as in social and home circles, owing to the social prominence of Cashier Myron Campbell and others of the bank.

The sensation that it caused has by no means died out, and everyone is wondering how it occurred. The prominent location of the bank, and the fact that its immense plate-glass front permits a full view of the interior, precluded the idea of such an occurrence. Had it been at night no wonderment would have been aroused, as an entrance could have been easily gained and work on the vault doors conducted without interruption or suspicion.

While the amount \$16,000 lost is large, the sensation seems rather to center around the fact that the robbery was committed in broad daylight and in the business center. Other bank officers have discussed the matter and each one is nonplussed, in short can not comprehend it. The plan of the robbery was substantially as given in the original dispatches, and yesterday's investigation shed but little additional light on the bold theft.

It was probably 30 minutes after Cashier Campbell found the telltale chisel before the robbery was discovered. Another 30 minutes passed before the police were made cognizant of the affair. Chief of Police Rose had half a dozen detectives in all directions within 10 minutes after he returned to police headquarters from a hasty inspection of the bank. All trains and other means of egress from the city were watched, a careful eye was on all suspicious characters and the utmost vigilance was used, but up to this hour not an arrest has been made even on suspicion.

Chief Rose said: "We have made no arrests and have no clews of a definite character." Cashier Campbell said: "I severely criticize myself for the robbery of our bank when I had locks and every appliance for the safety of our valuables."

The window through which the thief, for it is generally considered that one went inside, entered the bank, was within 10 feet of the window to a sleeping apartment in the residence of Assistant Cashier J. E. Kelley of the First National bank, and about the same distance from the sitting room.

At 12:15 o'clock Charles Davis, a well known New York theatrical manager, was dressing in the sleeping room. At 1:25 Mrs. Kelley was sitting by one of the sitting room windows. At 12:35 Detective Augustus Warrell passed the bank and stopped and looked in. He says no one was inside. From these facts it appears that the bank was looted between 12:15 and 12:30, or during a period of but 15 minutes, during which no one was at the windows of Mr. Kelley's residence.

UNKNOWN STEAMER SINKS.

She Suddenly Goes Down Off the English Coast.

LONDON, Dec. 9.—The steamer *Mangara*, which has arrived at Shields, reports that off Ushant, she saw a steamer in distress and sinking. A man on board of the distressed steamer was burning a flare signal, and the *Mangara* was asked to stand by the sinking vessel. Several other sailors were seen clinging to different parts of the sinking ship.

Suddenly the steamer in distress plunged to the bottom stem forward, and the *Mangara* was unable to save her crew. The name of the steamer which was thus lost, with all hands, has not been ascertained.

Turned State's Evidence.

LITTLE ROCK, Dec. 9.—William Wilson, identified by the wife of Bob Greenwood, the negro lynched by White Caps Sunday morning near Cherry Valley, has turned state's evidence. M. L. Morris, a Vandale blacksmith, has been arrested as a result and B. F. Clampitt and Dr. T. F. Wright are to be gathered in. Morris says he was to hold the horses while the White Caps whipped Mrs. Greenwood. Greenwood resisted and was shot down. Then his body was thrown in a small stream.

Fire and Water.

ST. LOUIS, Dec. 9.—Fire yesterday evening in the show windows of the Famous, an outfitting store owned by May Brothers, formerly of Denver, caused a loss by fire and water, the latter soaking the basement stockrooms, estimated by the fire department at \$20,000 and by the proprietors at \$150,000. In any event the loss is fully covered by insurance.

Love and Suicide.

BENHAM, Tex., Dec. 9.—A tale of love and suicide comes from Carmine William Colette has been desperately in love with Miss Wygand, a neighbor's daughter. Last night he called and found rival in the parlor talking to her. Colette, drawing a knife, stabbed himself three times in the breast and fell dead just as he reached the front door.

Natural Gas in Colorado.

GRAND JUNCTION, Colo., Dec. 9.—An immense volume of natural gas was struck in the experimental well of the Western Colorado Development company in this city yesterday at a depth of 500 feet. The force was so strong as to blow out the pipes. The pressure is estimated at 200 pounds to the square inch.

WEATHER FORECAST.

Fair weather; slightly warm-
er; southerly winds.

THE next General Assembly of Kentucky will convene January 2nd. The session is limited to sixty days by the new constitution.

AFTER a year's solicitation, Maine has succeeded in raising only \$115 to erect a monument to the memory of the late James G. Blaine. How soon are the dead forgotten!

MAYOR DUNCAN appointed two women to positions on the School Board at Lexington and it raised such a rumpus that he promptly withdrew the names. Lexingtonians must be an ungallant set.

THE sugar producers will draw about \$11,000,000 bounty out of Uncle Sam's treasury this year under the provisions of the McKinley bill. If this isn't taxing the many for the benefit of the few, what is it?

THE latest from Washington is, that Colonel Jay N. Northup will be the next Pension Agent for Kentucky unless there is an unexpected change in the programme. In honoring him with the position, the President will honor one of the best men and one of the ablest Democrats of Northeastern Kentucky.

THE New York Journal is decidedly of the opinion that the new tariff bill will not bring disaster and ruin to the country. It says: "Generally speaking, the cuts in the tariff have been judicious and will not scare manufacturers; for with raw materials free they can enter into competition with the whole world." Calamity shriekers should take a back seat.

A COPY of The Nation, edited by G. Cal. Richardson, of Lexington, is at hand. Richardson wants to "restore confidence and prosperity to the country," but his scheme is one of the craziest we have heard of. He wants the Government to issue \$4,000,000,000 of Columbian paper money and give \$50 of it to every citizen of the United States, the balance to create a fund to employ labor. Cal. had better go slow.

WHAT folly is this which says that it is necessary to put a tariff upon coal," observes the Jeffersonville Democrat, "when this country is richer in coal than any other in the world; how absurd it is and how idiotic. The idea that any country could import coal into the United States and compete with the great coal beds of the Union." Absurd as it is, some Republican editors are trying to make their readers believe that free coal will ruin this country's coal business.

HOW THEY DO NEED PROTECTION.

"When the McKinley Committee on Ways and Means were adjusting the tariff schedule," says the Cincinnati Enquirer, "they were importuned by the hop growers to increase the duty on hops, which was then only 8 cents a pound. Their argument was the usual one that they could not compete with the cheaper labor engaged in hop raising in other countries. This country would be flooded, they said, with the article and their large hop yards would become worthless. They succeeded in their object, and the duty was increased to 15 cents a pound. In the nine months ending October 1 of this year our hop growers exported to foreign countries 6,867,222 pounds, valued at \$1,781,423. The imports during the same period were 1,530,318 pounds, of the value of \$631,613. The exports were five times the imports!"

"It appears, then, that the American producer could pay freight charges to foreign countries and undersell the produce of pauper labor there. If this can

be done at a profit it is a very pertinent question to ask why need a tariff to protect from competition in the home market? A question to which no satisfactory answer can be given. This is not a tariff for protection, but a tariff for revenue. Revenue, not for the support of the Government, but for the enrichment of individuals, at the expense of the consumers of hops.

The duty imposed by the McKinley bill is 15 cents a pound, being an ad valorem duty of 42.85 cents. The Wilson bill to be presented to Congress reduces the tax to 8 cents a pound, being an ad valorem duty of 22.85 cents. This is a specimen of the change made by the Democratic measure. The country is not likely to be flooded with foreign hops, as we can compete in foreign markets with pauper raised hops. If they had been placed on the free list it would not have destroyed the industry."

Pork Packing.

The packing in the West the past week has been 290,000 hogs, compared with a like number for the preceding week, and 370,000 for corresponding period last year. Total from November 1 to date 1,310,000, total 1,540,000 a year—decrease 230,000 hogs. These figures indicate no increase compared with the preceding week, while there was a moderate gain last year for the corresponding time. The quality of hogs is good, and the average weight much heavier than last year, the gain mostly overcoming the loss in numbers.

Prices of hogs have not changed greatly during the week. There was some advance early, which subsequently disappeared, and the average at the close is slightly lower than a week ago. The general average of the prominent markets is about \$5.15 per hundred pounds, ranging up to \$5.25 and \$5.45 in some instances. Prices of leading articles of product for January delivery at Chicago are on a basis of about \$4.85 to \$4.90 for hogs.—Cincinnati Price Current, December 7.

Cincinnati Tobacco Sales.

John J. Fagin, of Germantown, Ky., sold five hogsheads at the Cincinnati Warehouse Thursday at from \$17.25 to \$18.

The Cincinnati sold for Thomas Hayes, of Donnerail, Scott County, four hogsheads of old at \$16.25 to \$18, and also seventeen hogsheads of new at \$5.30 to \$14.

Leslie Combs, of Fayette County, had a good lot of five hogsheads of Blue Grass tobacco on sale at the Globe Thursday, and obtained the following prices: \$5.60, \$11.25, \$12.75, \$15, \$17.50, the latter being the highest price so far for new this season.

James Burke, of Fleming County, sold at the Globe a hogshead of fine tobacco at \$22.25—the best price of the day.

Louis H. Drake, of Ripley, O., sold one hogshead at the Miami at \$20.75.

The Independent Warehouse sold ten hogsheads of Brown County tobacco Wednesday at an average of \$6.57 per hundred.

What They Say of "Bob" Taylor.

Lexington Transcript: "From the time the ex-Governor spoke the first words until the brilliant climax at the end—the attention of the audience was riveted on the lecturer."

LaGrange Graphic: "To hear him makes one more anxious to hear him again."

Birmingham News: He is eloquent and witty and his powers of pathos are only equalled by his inimitable humor."

Louisville Commercial: "While he possesses the faculty of going in rapid succession from the sublime to the ridiculous, there is never a moment when his sentences are not both elegant and eloquent."

Memphis Appeal: "His power as a mimic are inimitable, and his stories were irresistibly funny."

For the Farmer.

Ripley Bee: "A. B. Sidwell killed a seven-months' old hog that netted 206 pounds. Jas. Sidwell also killed one four-months and half old that netted 139 pounds. Who can beat this?"

The Chicago Gazette says: "Estimating from now to Jan. 1 the receipts of sheep here during the past year will foot up 3,025,000 head, or \$43,000 more than in 1890, the previous 'banner' year."

John W. Davis, of Woodford County, raised 45 acres of tobacco the past season which yielded 1,666½ pounds per acre, a total of 75,000 pounds. He got 11 cents a pound for all but 2,000 pounds and 5 cents for that. J. W. Parrish of same county got 10 cents a pound for 60,000 pounds.

The Programme For Monday Night.

Ex-Governor "Bob" Taylor will deliver his lecture on "The Paradise of Fools." Tickets on sale at Nelson's.

Remarkable Longevity.

The Boston Herald is informed by its Mexican correspondent that a man named Jose Cortez had just died at the city of Morelia, Mexico, at the age of 193. Incredible as it may appear, the fact is said to be thoroughly established by the records of the parish and other indisputable evidence. The condition of the elevated table lands of Mexico and Peru are exceptionally favorable to longevity, and it is said there are many authenticated instances on record of persons living to the age of 140 and beyond.

TURNPIKE TOLLS.

The Last Legislature Passed an Act Regulating the Rates.

Directors and Other Officers "Had Better Look a Leetle Out." Penalties Provided.

It is not generally known that the last Legislature passed an act regulating the rates of toll on all turnpikes, but such is a fact. And the act prescribes rather heavy penalties for any violation of its provisions.

A list of the rates charged on the various turnpikes in the county is not at hand, but the BULLETIN is informed that in many cases the rates fixed by the act are about one-third less than the rates now being collected.

For the information of the public the BULLETIN, by request, publishes the rates fixed by the act.

The act says "these rates are for gates standing five miles apart, and in that proportion for a less distance, but when there is a fraction of a road of a mile or more, less than five miles, toll may be charged at the gate next thereto for the fraction in the proportion that its length bears to five miles.

When less rates than the above are charged the reduction shall be made equal upon all rates.

The act also specifies that when any part of a turnpike or gravel road is within the corporate limits of any city or town and is kept in repair by such city or town, then no toll shall be charged for travel therein.

No corporation shall charge, exact or receive any toll greater than or in excess of the tolls authorized to be charged by its charter, when the tolls authorized to be charged by such charter are less or lower than those prescribed by this act.

The managers of any road in which the State (or county) has an interest shall permit ministers of the gospel to travel on the road without paying toll when on ministerial duty, and shall charge no toll against scholars going to or from school, or persons who are going to or from their accustomed places of worship, or funeral processions going to or from place of burial. But if any other person than scholars going to or from school, and the driver, shall occupy a vehicle, full toll shall be charged.

If the President and Directors of any turnpike company shall fail or refuse to perform the duties required by this law, they shall be fined in a sum not less than \$100 each, and made jointly and severally liable therefor, recoverable by indictment, for the use of the Commonwealth.

If any toll-gate keeper of any turnpike, or gravel road shall charge a greater rate of toll than that fixed and prescribed by this law he shall be fined \$10 for each offense; and if the corporate authorities or owners of any such road authorize a greater rate, they shall be fined \$50 for every excessive charge made by their authority.

All laws or parts of laws in conflict with the act are repealed.

TOBACCO FAIR.

Thompson & McAtee Arranging For Their Second Annual Exhibition. Premiums in Gold.

Messrs. Thompson & McAtee's second annual tobacco fair will be held in this city on December 27th. They offer \$105 in premiums in gold for the best sample of tobacco grown by the use of their special Kentucky Tobacco Fertilizer.

These gentlemen enjoyed an elegant trade on this fertilizer the past season, their sales having increased from 5,000 pounds in 1889 to 500,000 pounds in 1893. They expect a further increase of sales in 1894, as the farmers are just beginning to get their eyes open and realize the true value of fertilizers on all crops.

A courteous invitation is extended to everyone who is interested in the growth and production of tobacco to be present and witness the display.

Don't forget the date, December 27, 1893.

ELDER P. G. LESTER, of Georgia, preaches to-day at 11 a. m. and 3 p. m. and to-morrow at 10:30 a. m. and 3 p. m. at the Old School Baptist Church, near Mayslick. All friends are invited.

THE books of the Limestone Building Association are open for the subscription of stock to the ninth series. Call on H. C. Sharp, Secretary, James Threlkeld, Treasurer, C. D. Newell, Solicitor, or any of the Directors.

REV. T. W. WATTS, pastor of the M. E. Church, South, will hold morning service to-morrow, but owing to recent illness there will be no evening service. Young People's Society of Christian Endeavor will hold usual services at 6 o'clock.

AL. W. SMITH, who travels for John P. Morton & Co., was in town yesterday. Speaking of ex-Governor "Bob" Taylor's lecture, he said: "It is the richest talk one ever heard, and worth ten times the price of admission. Tell all your people to hear him next Monday night."

At the First Baptist Church to-morrow there will be the usual services at 10:45 a. m. and 7 p. m. Sunday school at 9 a. m.; Young People's Alliance at 6 p. m. The protracted meeting which has been in progress for several days will be continued next week. A cordial invitation to these services is extended to all.

ROBERT G. PATRICK, pastor.

A MAN fifty years old has, according to a French statistician, worked 6,500 days, slept 600, amused himself 4,000, walked 12,000 miles, been ill 500 days, has partaken of 36,000 meals, eaten 16,000 pounds of meat and 4,000 pounds fish, eggs and vegetables, and drank 7,000 gallons of fluid which would make a lake of 800 feet surface and 3 feet deep.

THE Disciples of Christ worship at their church on Third street to-morrow at 10:45 a. m. and 7 p. m. Sunday school at 9:30 a. m. Y. P. S. C. E. meets at 6:15 p. m. in the chapel. Morning theme, "Dying at the Top," a sermon to young men. Night theme, "A Theological Misfit." Pious ejaculations may spring out of one's earnestness—a sort of gushy enthusiasm—but may be as destitute of a rational element, as they are temporary and evanescent. Deep waters run silently. Tumults are caused by fixed rocks in the stream of progress. The conservative is such a fixed rock, against which the stream of progress dashes in its on-going. It is then he cries out, "What an uproar these progressives make!"

THE BEE HIVE!

STATUS OF OHIO'S PENITENTIARY.
Can Be No Longer Self-Sustaining Under
the New Law.

COLUMBUS, O., Dec. 9.—The board of managers of the penitentiary has presented its report to Governor McKinley. It is stated that the law restricting the number of convicts who may be employed at a given branch of industry has caused difficulty in letting contracts for the labor of inmates, and unless the convicts can be profitably employed, the penitentiary can no longer be self-sustaining, as it now is.

The Sanitary Condition

of the penitentiary is reported to be bad. Every visitor knows it to be utterly horrible. The sewerage system is very old and entirely inadequate, the ventilation is unworthy the name and the cell buildings stink worse than a garbage dump. The hospital building is pronounced dangerous. It is liable to collapse at any time. The floors are rotten and the construction of the building is such that if a fire ever gets started there will be no possibility of escape from death of the sick convicts or the attendants and physicians. The hospital room is on the third floor of an antiquated structure, and is only reached by flimsy and decaying wooden stairs.

Attention is properly directed to the apartment set aside for insane convicts. It is dark, desolate and stinking. No man would keep a good dog in it.

The board is in favor of the plan of solitary confinement as a punishment and asks that provision be made for it instead of the corporal punishment now used to discipline unruly convicts.

The total number of paroles granted during the year ending Oct. 30, was 36; four paroles were revoked. The total earnings during the year were \$255,451.49, expenditures, \$264,871.53; making a net profit of \$81,799.96. Last year the net profits were \$2,870.

LIKE A DOG

A Claim Jumper Was Killed and Buried
In a Colorado Mining Camp.

DENVER, Dec. 9.—A Winchester ball in the back, and a dog's burial, is the justice the new gold camp of Duncan, in the upper edge of San Luis valley, metes out to claim jumpers. A claim was staked out in the valley and in the owner's absence a second claim was staked, including the first. The first claimant, on returning, ordered No. 2 off, and started to pull up his stakes. No. 2 pulled his gun, announcing the determination to hold the claim. The crack of a Winchester was heard, a puff of smoke at the window of a neighboring cabin and No. 2 had "crossed the range." His body was allowed to lie as it fell for five days, when it was taken down to the valley and buried in the sand with the feet sticking out, in which condition it still remains.

SUGAR BEETS IN INDIANA.

Experiments at Moore's Hill Show They
Can Be Raised.

MOORE'S HILL, Ind., Dec. 9.—The efforts of the government's agricultural department to have beets grown in Indiana seem to be meeting with some measure of success. A farmer in Washington township, John Beckett, tried the experiment of raising beets, and reported that he grew 650 bushels on one and a quarter acres. This demonstrates that the sugar beets can be successfully raised in Indiana.

On Waiting Orders.

WASHINGTON, Dec. 9.—Commodore Stanton called at the navy department and submitted to the secretary his written report of the incident of his salute of Mello in the harbor of Rio Janeiro. Having completed this duty and being on waiting orders, the commodore is at liberty to go where he pleases. He left yesterday afternoon for his home in New London, simply leaving his address with the department. It is probable that Secretary Herbert will give out the report for publication at an early day, together with the conclusion reached.

Raiding the Anarchists.

MADRID, Dec. 9.—The police have made a raid upon houses suspected of being occupied by anarchists at Messina del Rio Seco, a town 26 miles northwest of Valladolid, and secured a number of documents giving much valuable information as to anarchistic plots and the movements of the chief conspirators.

Bad for Joan.

ROME, Dec. 9.—The congregation of rites have forbidden the recital of the so-called litanies in honor of Joan of Arc. The cardinals charged with the preliminary process for the beatification of Joan declare that such fanciful devotions will not only delay their task, but will be injurious to healthy piety.

Arrested on an Old Charge.

ANDERSON, Ind., Dec. 9.—Granville Davis of this city was arrested by Deputy Sheriff McWilliams of Dayton, O., on the charge of forgery committed 19 years ago.

Failed to Make Expenses.

LIMA, O., Dec. 9.—A receiver was appointed yesterday for the Ohio Chemical company. The company has done an immense business all over the country selling so-called bichloride of gold tablets for drunkenness and the tobacco habit.

Paid the Death Penalty.

COLD SPRINGS, Tex., Dec. 9.—Alf Watson, a negro, was hanged here for killing his mistress. Watson said his sentence was a just one. The hanging was witnessed by about 3,000 persons. Watson made a short speech from the scaffold. His neck was broken.

Offered a Good Thing.

LONDON, Dec. 9.—A dispatch to a news agency from Cairo reports that the British ambassadorship to St. Petersburg has been offered to Baron Cromer, who, it is expected, will accept. Baron Cromer is now British political agent and consul general at Cairo.

Double Hanging.

DANVILLE, Ills., Dec. 9.—Harvey Pate and Frank Stires were hanged yesterday for the murder of Henry Helmick, a wealthy farmer of Pilot township, on the night of Aug. 28 last.

Want to Stop Drs. Briggs and Smith.
PITTSBURG, Dec. 9.—The committee of 15 appointed at the last general assembly to devise ways and means to stop Drs. Briggs and Smith from teaching in theological seminaries supposed to be on friendly terms with the church, adjourned to meet in Cincinnati between now and the date of the meeting of the general assembly in May.

Blew the Safe.

POMEROY, O., Dec. 9.—Burglars entered J. N. Rathburn & Sons' store, at Rutland, last night, and stole \$500 worth of merchandise, including 18 watches. The safe was blown open but they got nothing from it. There is no clew.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

**Complete Manhood
and how to attain it.**

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientific, practical, and complete. It is the most beautiful medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotence, Sterility, Development, Varicocele, The Husband, Those intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would avert past follies and avoid future ones, should write for this wonderful little book. It will be sent free, under seal. Address the publishers,

LONDON, Dec. 9.—A dispatch to a news agency from Cairo reports that the British ambassadorship to St. Petersburg has been offered to Baron Cromer, who, it is expected, will accept.

Baron Cromer is now British political agent and consul general at Cairo.

Double Hanging.

DANVILLE, Ills., Dec. 9.—Harvey Pate and Frank Stires were hanged yesterday for the murder of Henry Helmick, a wealthy farmer of Pilot township, on the night of Aug. 28 last.

Paid the Death Penalty.

COLD SPRINGS, Tex., Dec. 9.—Alf Watson, a negro, was hanged here for killing his mistress. Watson said his sentence was a just one. The hanging was witnessed by about 3,000 persons. Watson made a short speech from the scaffold. His neck was broken.

Offered a Good Thing.
